Party Mix

Two-Channel Starter DJ Controller with Built-In Sound Card and Light Show

Lets Get This Party Started!

There 'aint no party like a Party Mix Party! Ultra-portable and packed with all critical DJ tools, Party Mix is an amazing DJ controller featuring effortless connection directly to your Mac or PC, letting you browse, play and mix all of your favourite songs with the included Virtual DJ LE software. What really sets Party Mix apart from every run-of-the-mill controller out there is its electrifying light show – yep, you heard us, three room-filling LED light arrays auto-sync to your mix, flashing from the back of the Party Mix, illuminating your performance. With a built-in sound card plus all the essential controls the modern DJ demands you can take command of your mix with 2 jog wheels, sync / cue / play buttons, a crossfader, four responsive performance pads for total-control of cue-points, auto / manual looping and sample playback and keep your mix on point with on-board headphone cueing. Become the DJ and make your next party utterly unforgettable with Party Mix – trust us, you won't be disappointed!

Dazzling Light Show

Take your party to the next level and amaze your friends and family with your DJ skills. With Party Mix's built-in light show, you will shower the room with colourful light patterns, creating the perfect party atmosphere! Plus the lights auto-sync to your music so you can focus on what's important – your ultimate party set!

On-Board Audio Interface

Make complicated setups a thing of the past with Party Mix. With an on-board, pro-grade audio interface plus a dedicated 1/8-inch headphone output and 1/8-inch main output, keep your mix on point and seamlessly connect to virtually all mixers, powered speakers and audio recorders.

Mix Control

At Numark, we know core control forms the beating heart of any DJ Set – that's why we packed Party Mix with all the must-have mix essentials you demand. With two channels, outfitted with a crossfader, jog-wheels and pitch faders, access to critical, must-have tools for seamless blending are right at your fingertips!

Add Some Flair

Don't let the small size fool you— this controller packs a punch when it comes to performance enhancing controls! With four pad modes for total-control of cue-points, auto / manual looping and sample playback, Party Mix gives you access to performance controls typically found on larger controllers.

Style Driven, Ultra-Portable

At Numark, we know the modern DJ demands their setup is portable, robust and style-driven. With a sleek low-profile design and radiant backlit controls, it looks great and is made to move! What's more, it's powered over USB and supports plug-and-play connectivity for maximum portability and effortless integration!

Software

Serato DJ Intro Included

We know your set demands the best, that's why Party Mix comes pre-mapped with Serato DJ Intro for Mac & PC (included). Built on Serato DJ Pro technology, Serato DJ Intro is designed to be intuitive, reliable & feature rich – everything you need for a five star DJ set is right here, with hassle free setup guaranteed!
